9. General resume of activity - (Narrative statement of activity not otherwise covered, summarizing work, training, special cruises and visits, conversion, modification, overhaul, new equipment, and the like. Documents appended should be identified in Part VI, page 4.)

Extensive development of conventional weapons delivery techniques has been emphasized during this training period. The results of this training were shown by participation in the previous mentioned competitive sweeps and strikes.

Present training techniques are employing tactical maneuvers experienced in conventional weapons delivery for possible future close air support missions. These tactics are incorporated into our normal daily intercept syllabus.

Further use of the Data Link equipment installed in the F4G Phantom II is providing intercept tactics associated with Data Link control.
